

Internet Service Providers (ISP) Serving Lincoln County

Not all ISPs reach all parts of our beautiful rural county.

The best thing to do before you sign a contract with a provider is to ask the folks at City Hall, at local businesses, at church, your Chamber, and your friends and neighbors who they use and if they are happy with them.

You can also call or email the Economic Development Council at 509-368-7085 or Margie@LincolnEDC.org and we will help you find the providers for your community. We are happy to help!

DSL

[CenturyLink](#) 800-788-4600

Fiber

NoaNet Provider - [Odessa Office](#) 509-982-2181
