

# Internet Service Providers (ISP) Serving Lincoln County

## **Not all ISPs reach all parts of our beautiful rural county.**

The most important thing to do before you sign a contract with a provider is to ask City Hall, local businesses, churches, Chambers, and neighbors who they use and if they are happy with them. Call the Economic Development Council at 509-368-7085 or email them at [Margie@LincolnEDC.org](mailto:Margie@LincolnEDC.org) if you have additional resources, questions or concerns.

## **DSL**
